# Entry Doors

The new Shaker Collection is characterized by spare lines and pure shapes. In this style, simplicity reigns, the superfluous is banished, and an object's function takes precedence over its decorative appeal. This collection is therefore designed to offer refreshingly simple models that pair manufacturing excellence with a high regard for proportion, balance and harmony.

## Contemporary Profile

With its clean profile, this frame is the ideal choice for doors with multiple cut-outs, such as the UNO configurations (see p.19). The profile, which looks the same inside and out, brings the focus on your doorglass selection. This frame matches perfectly with our Shaker and Design steel doors, to be used in the Contemporary, Eclectic or Natural trends.

## Prestige Profile

A perfect fit with classic styles. The detailed profile makes the screw cover practically invisible creating an illusion of perfect symmetry inside and out. Specifically designed for the Prestige steel doors, the prestige profile frame can also be used on Classic steel and fiberglass doors.
